**AIR NAURU TO CARRY PASSENGERS FOR SOLOMON AIRLINES**

Air Nauru and Solomon Airlines have signed a Codeshare Agreement that will enable Solomon Airlines' passengers travelling between Australia and the Solomon Islands to be carried by Air Nauru on its services between Australia and Nauru.

In announcing the Agreement, the Acting Chief Executive Officer of Air Nauru, John Goulding, said that Codeshare Services had extensive benefits for passengers and the airlines.

“In the past few months, demand for travel between Australia and Honiara, the capital of the Solomon Islands, has exceeded capacity and Solomon Airlines have been forced to turn away passengers. It therefore makes sense for Air Nauru to land in Honiara, on services between Australia and Nauru. Not only do we help the Solomons by boosting their capacity by nearly 25%, we also open up the routes between the Solomons, Nauru, Kiribati (Tarawa) and Fiji. This is an excellent example of airlines working together to provide overall better services to the people of the Pacific.”

The new services from Brisbane to Honiara will operate on Mondays and Thursdays and the return services will operate on Tuesdays and Fridays.
